
Morehouse School of Medicine signed the Federal Funding Certification and Agreement on April 13, 2020. MSM intends to use no less than 50 percent of the funds received under Section

The total number of students who have received an Emergency Financial Aid Grant under the Section (a)(1) is 44. This is inception through 9/30/20.

Students who were eligible for financial aid and demonstrate an exceptional financial need can be considered for the student portion of the CRRSAA grant because of the pandemic. Acceptable documentation included expenses based on the cost of attendance that included technology, health care, childcare, course materials, rent, food, or other related expenses. The institution used the grant limits for the student federal aid from our existing emergency loan program reducing it to \$750 per student to maximize the number of students who would receive the grant.

There is an application for students to complete. We also provide students the Q and A regarding the Cares Act regulations and provided links where they could go directly to the DOE for additional information. The application portal that can found on the Morehouse School of Medicine Financial Aid website.

The CARES Act was passed by the Federal government to provide emergency relief funding for eligible college students due to COVID-19. If you have been directly affected by COVID-19, you may complete the Cares Act Financial Assistance form and submit for review. The application portal can be found on the Morehouse School of Medicine Financial Aid website.
